Work Experience

SMK IDN Boarding School Solo / Web Dev Teacher

AUG 2021 - DEC 2024, Solo

Teaching Backend and Frontend Web Development
- Instructed and mentored students in both front-end and back-end web development, covering technologies such as HTML, CSS, JavaScript, PHP, Laravel, Bootstrap, TailwindCss, Node.js, MySQL, and API development.
- Delivered hands-on lessons, coding workshops, and project-based learning experiences to help students develop practical web development skills.
- Developed and implemented a comprehensive curriculum for web development, ensuring students learned the latest industry practices and tools.
- Assisted students in building personal projects and web applications, providing guidance in debugging, code optimization, and the use of best practices.
- Fostered a collaborative classroom environment, encouraging teamwork, problem-solving, and critical thinking.
- Evaluated student performance, provided constructive feedback, and adapted teaching methods to accommodate diverse learning styles.

Alamraya / UI Designer

MAY 2023 - SEPTEMBER 2023, FREELANCE

Currently, I designed 1 app including 1 website dashboard & mobile app for client aeris. Delivered a unified set of guidelines, toolkits, and accessible component for Aeris. I collaborate with developer teams of related parties to ensure the creation and provision of tailored experiences for application system.

Synthesis Residence Kemang / UI Designer

JAN 2020 - MAR 2020, FREELANCE

I designed a website landing-page for marketing and translating the flow into a UI Design that is easy for users to use. In this project i use user-centered design framework to ensure the product is easy to use.
